CERTIFICATIONS

TOEIC (545/990)   *2023*

WORK EXPERIENCE

CORYLAB | STARTUP PROJECT   *2023 - Present*
Cita - Learn & Speak English

Flutter Developer

Product: https://citaspeak.com/ - Mobile learning app on Google Play & App Store
• **Developed and launched** production mobile app with 28+ language support on App Store and Google Play Store
• **Architected real-time AI conversation system** with speech recognition and pronunciation assessment features
• **Implemented offline-first architecture** with automatic data synchronization using Brick ORM and Firebase
• **Built modular codebase** with 15+ feature modules including chat, quiz, video, and course systems
• **Integrated advanced audio processing** with STT/TTS, voice activity detection, and real-time feedback
• **Designed complete UI/UX** in Figma and implemented Material 3 design system with custom components
• **Established CI/CD pipeline** with Codemagic, reducing deployment time by 80%
• **Managed project workflow** using Linear task tracking and Slack team communication

Key Achievements:

• Live production app serving users across 28+ languages

• Successful App Store and Google Play Store approval and deployment

• 20% development time reduction through AI-enhanced development tools (Cursor, Grok, Gemini)

• Zero-downtime deployment with multi-environment setup (dev, staging, production)

Tech Stack: Flutter, Dart, Riverpod, Firebase, WebSocket, RevenueCat, YouTube API, Sentry, Mixpanel
